
CONTRIBUTORS

Victor A. Kulesh – Dr.Sc. (Engineering). Professor. Ship Architecture and Design Department of Adm. Nevelskoy Maritime State University, Vladivostok. Author of more than 160 published works concerning service reliability of vessels and offshore structures. Some major articles are “Safety of Ships Navigation in Ice and Operational Effectiveness” and “Analysis of ice strength margins of fishing vessels”. Phone: +7(423) 230-1239. E-mail: vkulesh@mail.ru, TusGlob@msun.ru

Yuri A. Komarovskiy – Ph.D. (Technical Sciences). Associate professor, senior research fellow of the Navigation Department of Adm. Nevelskoy Maritime State University, Vladivostok. Author of about 330 scientific articles and works in the sphere of modern satellite navigation systems usage in order to increase safety of navigation. The most remarkable of them are: “Assessment of the Earth magnetic field components’ impact to the absolute speed measurement errors by ship’s Navstar GPS receiver”(article, 2004), “Impact of frequency offset in the PRN23 satellite navigation system on Navstar GPS receiver operations” (article, 2005), “Estimation of coordinate accuracy of ship’s GP-270ML GPS-receiver»(proceedings, 2009). Phone: +7 (423) 230-1254. E-mail: komarovskiy@msun.ru

Sergey V. Glushkov – Dr.Sc. (Engineering). Professor. Head of Automatic and Information Systems Department, Maritime Institute for Information Technology of Adm. Nevelskoy Maritime State University in Vladivostok. Scientific interests: AI systems in technical objects management and control, Technical objects parametric reliability. Major publications are “Algorithms of self-adaptive ship’s course control system” and “Fuzzy logic in automatic ship’s course control system” as well as a monograph “Synergetics and neural network systems for ship course control”. Author of more than 80 research publications and works in the sphere of interests. Phone: +7 964-443-3253. E-mail: glushkov@msun.ru

CONTRIBUTORS

Moon-Soo Jeong - Ph.D. (History). Professor. Director of the Institute of International Maritime Affairs, Korea Maritime and Ocean University, Yeongdo-ku, Busan, South Korea. Main scientific research interests are maritime history, contemporary European history, European area studies and cultural interaction studies of seaport cities. Author of such publications as “Seaport Cities in History and Myth” (book, 2011), “Maritime Festivals in the Seaport Cities” (book, 2008), etc. Phone: +82 10 3838 4851, +82 51 410 5261. E-mail: jms@kmou.ac.kr

Andrey I. Fisenko – Dr.Sc. (Economics). Professor. Director of the Institute for Transport Economics and Management, Adm. Nevelskoy Maritime State University. Current research interests are philosophical, economic and political bases of contemporary budget federalism models in conditions of globalization and regional integration. Author of more than 200 published works in finance and economics in transport sphere, including 15 monographs. Major recent publications are: “Competitiveness of the Russian Far East seaports and their cargo base issues” (article, 2012), “Institutional and behavioral aspects of agent-based modelling of freight tariffs” (monograph, 2012). Phone: +7 (423) 251-7544. E-mail: fisenko@msun.ru

Maxim O. Maksimov – postgraduate research fellow in Adm. Nevelskoy Maritime State University, Vladivostok and a vessel second mate in STOLT Shipping company. Research interests: vessel flows theory and vessel traffic management and control. Phone: +7 (423) 230-1275. E-mail: maxim.o.maksimov@yandex.ru

Natalya V. Borodina – associate professor. Head of Foreign Languages Department of Far Eastern State Technical Fisheries University (Dalrybvtuz). Author of about 40 scientific publications, textbooks and manuals concerning professional foreign languages studies and methodologies in maritime higher educational institutions. Phone: +7 (423) 244-2276. E-mail: natalya_borodina@yahoo.com

CONTRIBUTORS

Larisa A. Donina - Associate professor. Vice Director for Academic Affairs of Maritime College of Adm. Nevelskoy Maritime State University, Vladivostok. Research interests: maritime vocational secondary education development programs and quality management. Phone: +7 (423) 230-1239. E-mail: larisa_donina@mail.ru

Irina V. Gerasimova - Ph.D. (Psychology). Associate professor. Head of Psychology Research Laboratory of Maritime Humanitarian Institute of Adm. Nevelskoy Maritime State University, Vladivostok. Research interests: maritime psychology, Ericksonian hypnosis in psychotherapy. Author of over 40 publications, the major of which are “Personal characteristics of Ship-Traffic Coordinators” (proceedings, 2007), “Ginger pentagram in University organizational culture diagnostic” (proceedings, 2013). Phone: +7(423) 230-1253. E-mail: Geracimova@msun.ru, gera-ira@mail.ru

Alexey Yu. Strelkov - Associate professor. Head, Maritime English Department of Admiral Nevelskoy Maritime State University, Vladivostok. Scientific interests: Methodology of teaching English, Maritime English, History of the English Language. Author of about 30 papers and presentations, most significant are “On changes in the linguistic world-image”(article, 2005), “Raising Cadets’ Safety Awareness through Language Teaching”(article, 2010). Phone:+7 902 520 7630. E-mail: strelkov@msun.ru

Valeriy V. Tarasov – Professor. Department of Oil&Gas Equipment Technology and Operations, Sea Protection and Shelf Development Institute of Adm. Nevelskoy Maritime State University, Vladivostok. The main research interests are advanced methods and devices for marine ice destruction, survey services improvement in the Russian ports, methods and devices for used lubricating materials regeneration. Author of dozens of scientific publications, the most remarkable of them are: “Analysis and research of the ways to protect marine ice-

Anastasia O. Barannikova - researcher, Center for Maritime International Studies of Adm. Nevelskoy Maritime State University, Vladivostok. Research interests: all aspects of interactions among the Asia-Pacific countries, the Russian Far East in the system of Russian national interests. The most important publications are “Whether it was really North Korea who sank *Cheonan* corvette: view from Russia”, (article, 2011) and “Vladivostok: from a Naval base to APEC 2012 Summit host”, (article, 2012). Phone: +7(423) 230-1275, +7 924-241-4737. E-mail: electronicCCM@yandex.ru , barannikova@msun.ru

Alexander A. Lentarev – Dr.Sc. (Engineering). Professor. Navigation Department of Maritime Academy of Adm. Nevelskoy Maritime State University, Vladivostok as well as deputy director of Sea Protection and Shelf Development Institute of the same university. He has more than 200 published works concerning safety of navigation and environmental issues. Phone: +7(423) 230-1254. E-mail: lentarev@msun.ru

Natalia G. Levchenko – Professor of IT Management. Head of Internet/ Intranet support division, Center for Information Technology. Deputy Director of Far East Innovation& Technology Center of Adm. Nevelskoy Maritime State University, Vladivostok. Current research topic is “Development of a method of information resources optimization in a maritime industry enterprise”. Author of more than 20 publications in the fields of information systems technology in maritime industry, neural network&fuzzy logic technology, mathematical modeling, AI and decision support systems. Phone: +7(423) 230-1242. E-mail: levchenko@msun.ru
